SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Madam/Sir:

To comply with 37 CFR §1.97 and §1.98, Applicants submit the enclosed Form HDP-1449 and copies of all documents listed on the Form HDP-1449.

In accordance with MPEP §609 and §707.05(b), Applicants request that each document listed be given thorough consideration, and that the Examiner cite each document of record in the prosecution history of the above-referenced application by initialing the Form HDP-1449 next to each document. Applicants request such initialing even if the Examiner does not consider: (1) a listed document to be sufficiently pertinent to use in a rejection; (2) a document to be prior art for any reason; or (3) that the guidelines for citation have been fully complied with respecting a particular document. Applicants make this request so that each document becomes cited on the face of a patent issuing from the above-referenced application.

Applicants submit this Information Disclosure Statement in compliance with the duty to disclose information material to patentability under 37 CFR §1.5, but by listing such documents Applicants are not admitting that such documents are necessarily relevant or prior art. Applicants intend no representation that the listed documents represent the results of a complete search. Applicants anticipate that the Examiner, in the normal course of examination, will make an independent search consistent with 37 CFR §1.104(a) and §1.106(b), and, in the course of such search, will review for relevance every document listed on the attached form even if not initialed.

Applicants make no representation as to the accuracy of any translation provided with this Information Disclosure Statement.

The attached Form HDP-1449 and Applicants' previously-filed Form HDP-1449's cite several U.S. patent applications and U.S. patents. Applicants presume that the Examiner has access to the file histories of the cited applications and patents (as well as the file histories of the applications to which the cited applications and patents claim priority), and has/will review those file histories to the extent the Examiner feels they may be material to the patentability of the instant application. For the Examiner's convenience, however, Applicants have enclosed Office actions that are directed to the patentability of the claims in U.S. Pat. Nos. 6,423,713; 6,514,977; 6,525,059; and 6,617,324. Applicants also have enclosed Office actions from abandoned U.S. Pat. Appl. No. 09/083,670, which is related to each of those patents through priority claims. These enclosures do not include Office communications unrelated to patentability, such as notices of missing parts, Office communications directed solely to a restriction requirement, etc. Upon the Examiner's request, Applicants can provide copies of Office actions from any other cited U.S. application or U.S. patent, to the extent Applicants have such Office actions in their possession.

Finally, the attached Form HDP-1449 and Applicants' previously-filed Form HDP-1449's cite several PCT and foreign patent references that have corresponding U.S. filings. These include, for example:

WO 98/52937, which corresponds to U.S. Pat. Nos. 5,932,576 (filed 5/22/98; issued 8/3/99); 6,087,496 (filed 4/1/99; issued 7/11/00); 6,335,336 (filed 4/28/00; issued 1/1/02); and 6,579,873 (filed 12/18/01; issued 6/17/03); and US Appl. No. 10/456,861 (filed 6/6/03);

WO 98/52941, which corresponds to U.S. Pat. Nos. 6,087,381 (filed 5/22/98; issued 7/11/00) and 5,503,930 (filed 3/31/00; issued 1/7/03); and U.S. Appl. Publ. No. US-2003-0144529 (filed 10/9/02; published 7/31/03);

WO 99/58523, which corresponds to U.S. Pat. No. 6,509,361 (filed 2/21/01; issued 1/21/03) and U.S. Appl. No. 10/322,039 (filed 12/17/02); and

WO 00/31072, which corresponds to U.S. Pat. Nos. 6,143,892 (filed 11/18/99; issued 11/7/00); 6,242,612 (filed 8/7/00; issued 6/5/01); 6,342,608 (filed 1/30/01; issued

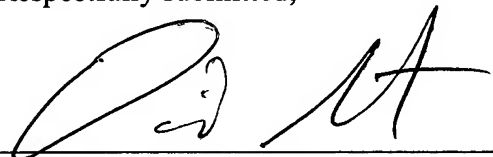

1/29/02); 6,482,955 (filed 8/6/01; issued 11/19/02); and allowed U.S. Appl. Publ. No. US-2003-0135057 (filed 10/10/02; published 7/17/03).

In an effort to minimize duplication, Applicants have not cited these U.S. patents and applications. Applicants presume that the Examiner has access to these documents (as well as their file histories), and has/will review them if the Examiner feels they may be material to the patentability of the instant application. Upon the Examiner's request, however, Applicants can provide copies of these patents, applications, and/or any Office actions from the file histories of any such patents or applications, to the extent Applicants have such Office actions in their possession.

In addition, if there is ever any other fee deficiency or overpayment under 37 C.F.R. §1.16 or §1.17 in connection with this patent application, the Commissioner is hereby authorized to charge such deficiency or overpayment to Deposit Account No. **08-0750**.
